# Effortlessly Achieve and Maintain Compliance Standards with ISOcomply365's AI Assistant

ISOcomply365 is designed to empower compliance managers by simplifying and streamlining the complex processes involved in achieving and maintaining certifications. Our platform provides significant returns on investment by reducing errors, improving efficiency, and ensuring adherence to standards.

## Key Benefits:

- **Empowerment:** Enables compliance managers to not just meet standards but set them.
- **Efficiency:** Significant ROI within 12 months due to streamlined processes and reduced errors.
- **Support:** Dedicated onboarding and technical support to ensure your success.

## How ISOcomply365 Works?

### • How ISOcomply365 Works

ISOcomply365 provides a comprehensive solution that covers a wide range of standards and certifications. By integrating seamlessly with existing business applications and using innovative features like an AI assistant, customisable dashboards, and real-time alerts, ISOcomply365 makes compliance management more efficient and effective.

### **Comprehensive Coverage:**

- Supports standards from quality management to environmental sustainability, asset management to occupational health.

### **Streamlined Processes:**

- Customisable audit checklists and built-in AI assistant.
- Automated audit plans and non-conformity reporting (NCR).

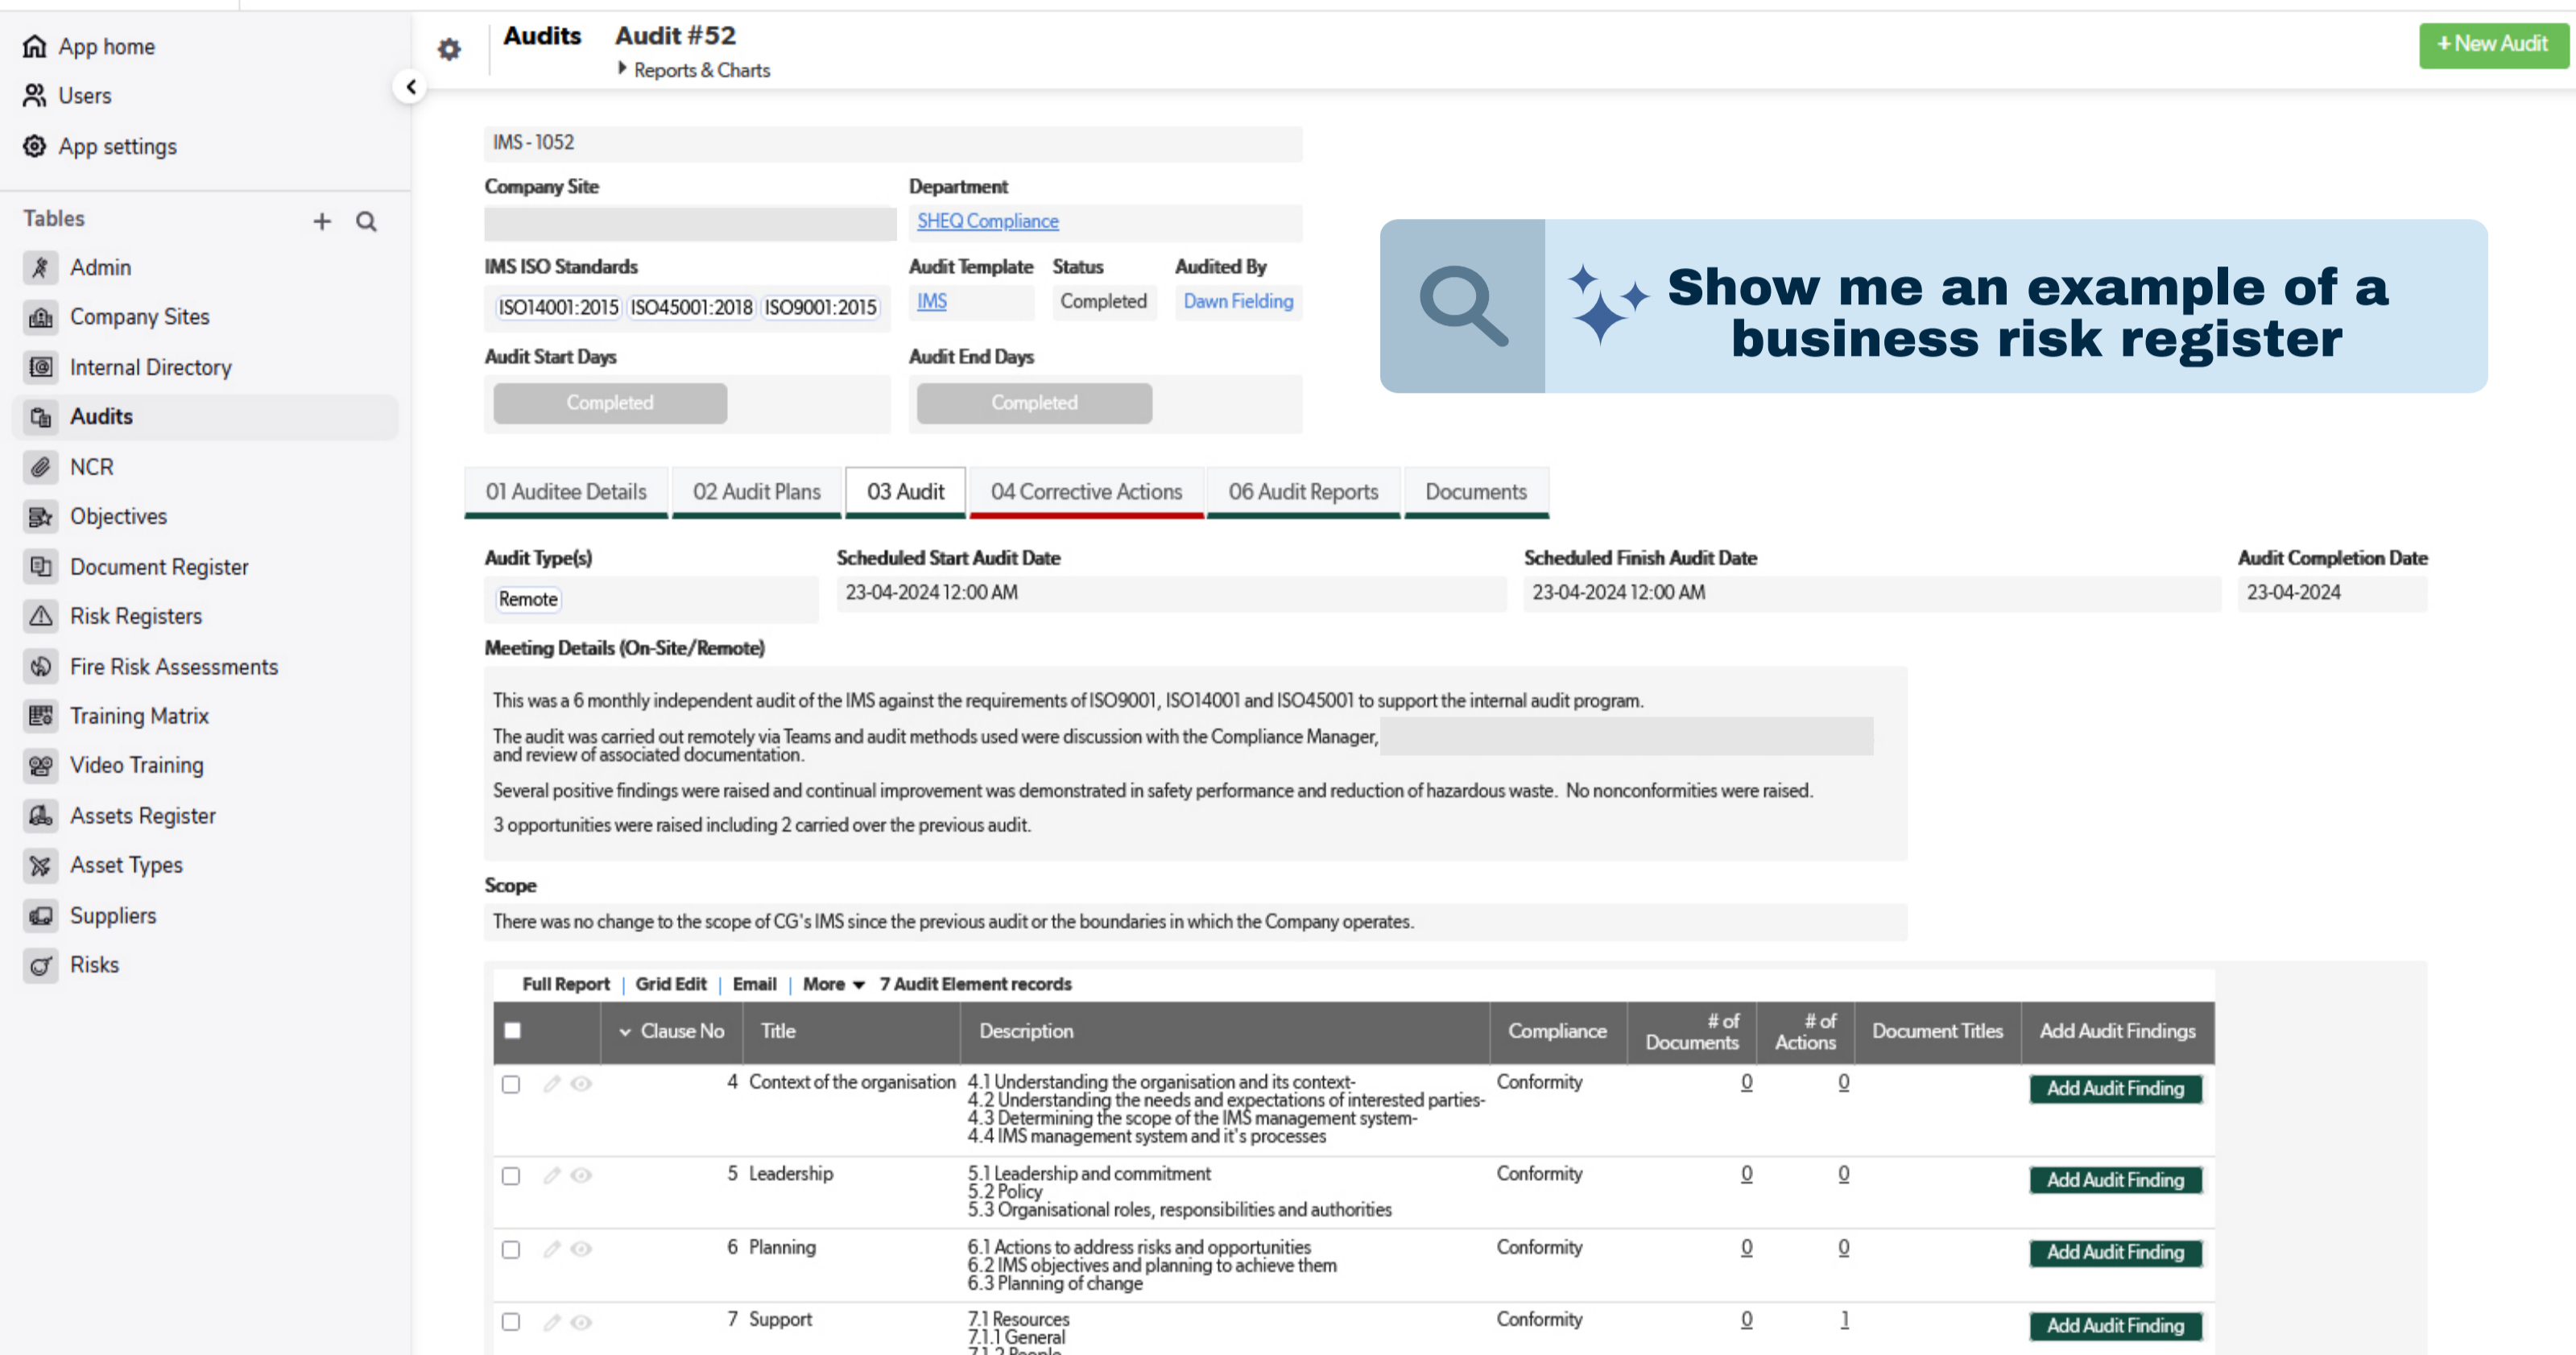

### **Integrated Approach:**

- Seamlessly integrates with SAP, XERO, QuickBooks, and other business applications.
- Unified compliance management experience.

01 Auditee Details | 02 Audit Plans | 03 Audit | 04 Corrective Actions | 06 Audit Reports | Documents

Audit Type(s): Remote Scheduled Start Audit Date: 23-04-2024 12:00 AM Scheduled Finish Audit Date: 23-04-2024 12:00 AM Audit Completion Date: 23-04-2024

**Meeting Details (On-Site/Remote)**

This was a 6 monthly independent audit of the IMS against the requirements of ISO9001, ISO14001 and ISO45001 to support the internal audit program. The audit was carried out remotely via Teams and audit methods used were discussion with the Compliance Manager, and review of associated documentation. Several positive findings were raised and continual improvement was demonstrated in safety performance and reduction of hazardous waste. No nonconformities were raised. 3 opportunities were raised including 2 carried over the previous audit.

**Scope**

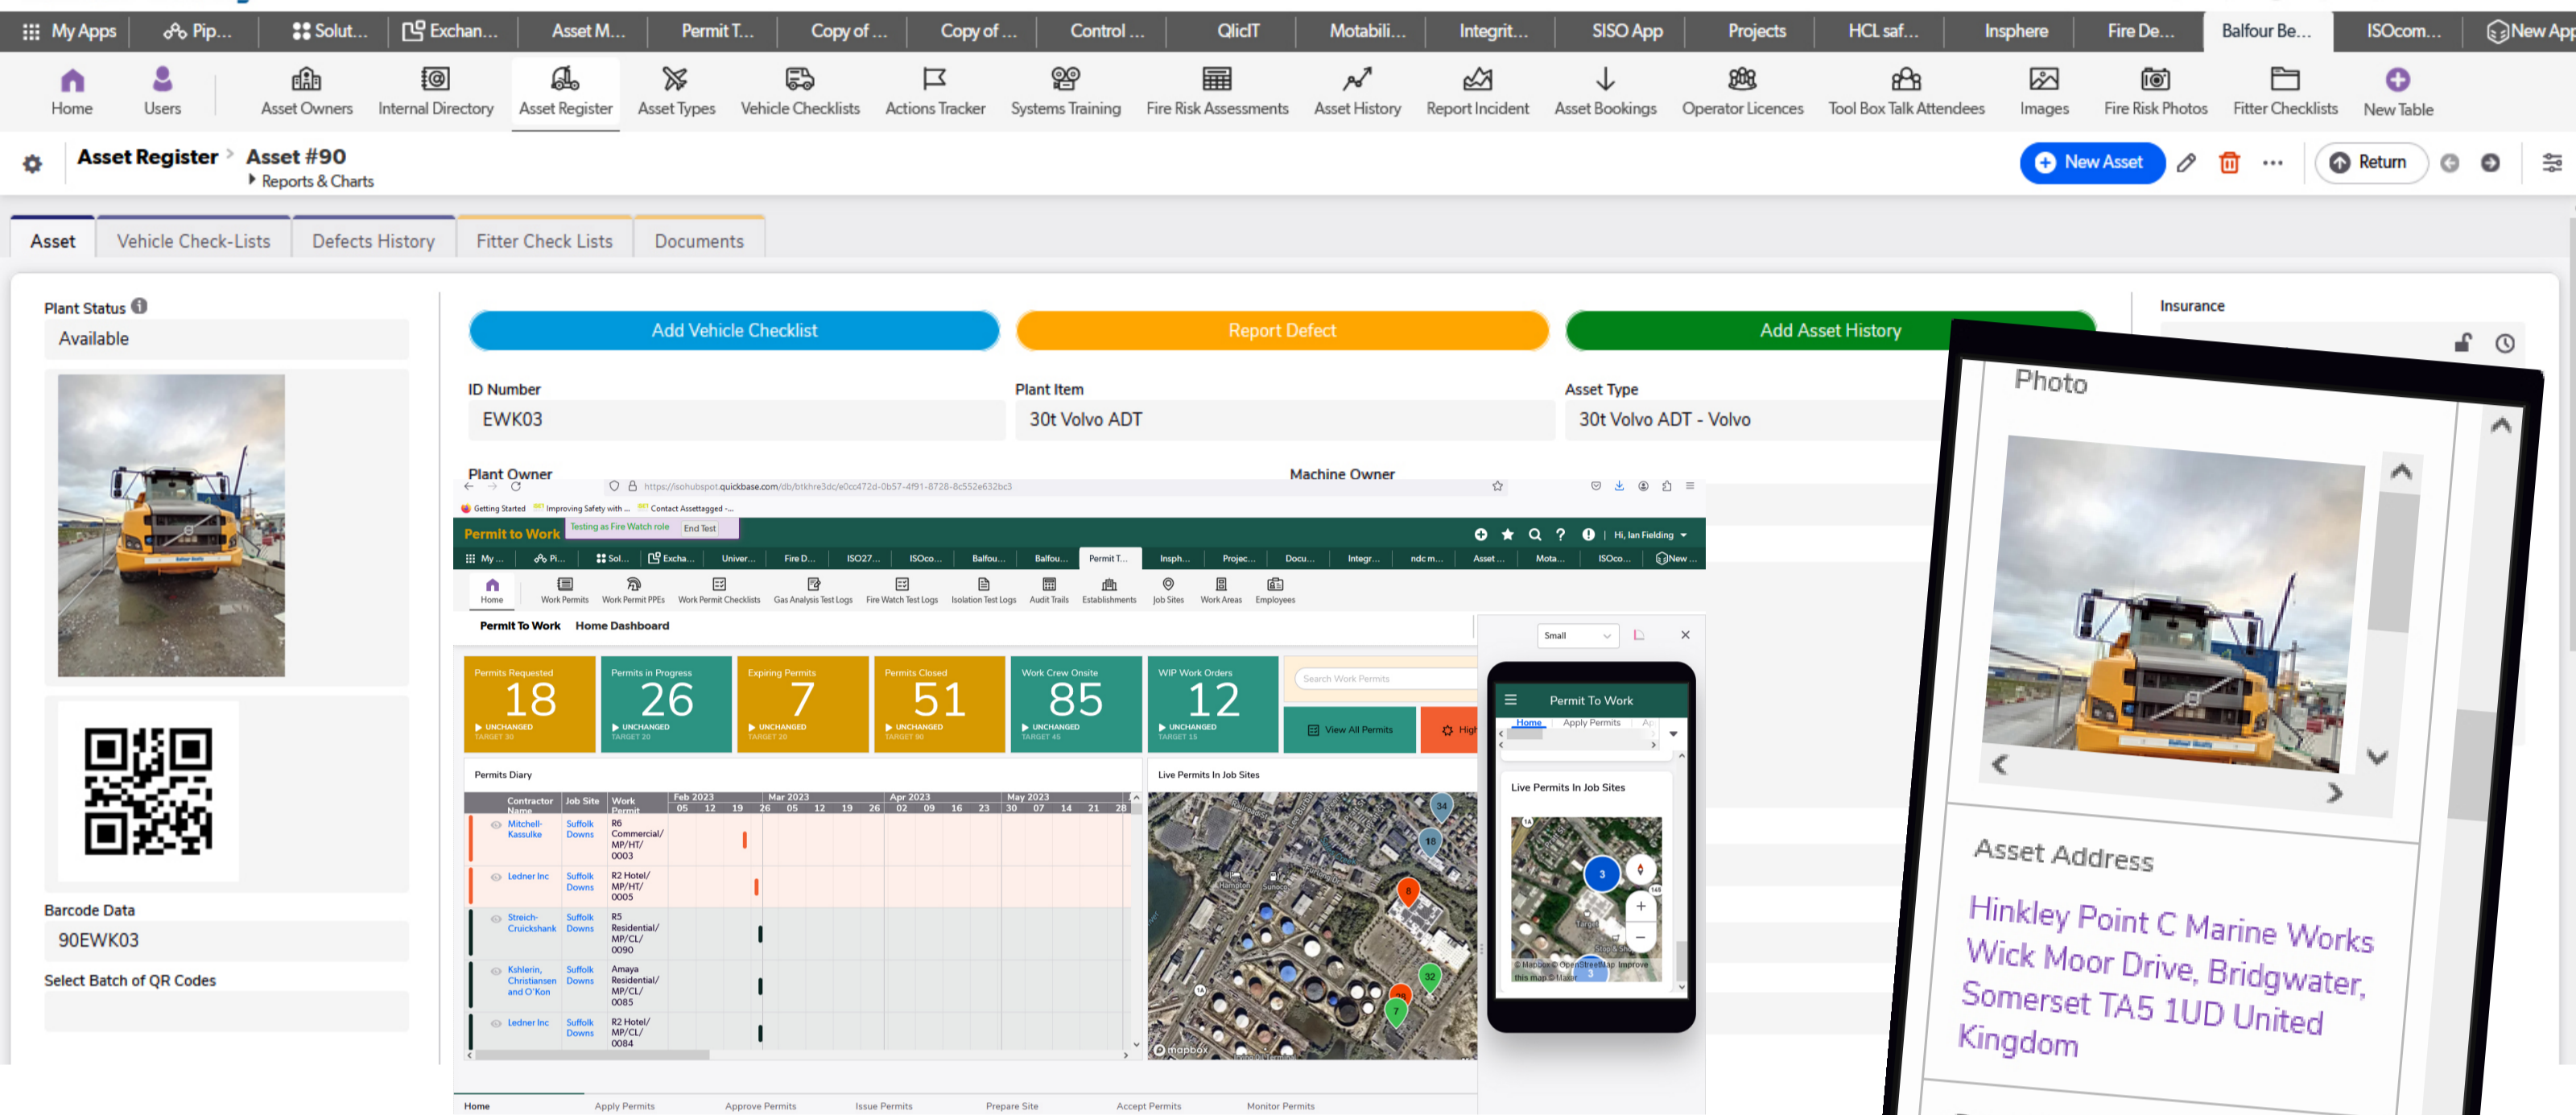

There was no change to the scope of CG's IMS since the previous audit or the boundaries in which the Company operates.

# Simplifying Compliance, Certifying Success from a single dashboard.

The dashboard provides a comprehensive overview of compliance status across several key areas:

- Action Tracker by Departments:** A horizontal bar chart showing the number of actions by department. The 'Workshop' department has the highest number of actions, with approximately 4 'Not Started' (red) and 4 'In-Progress' (blue) actions.
- Controlled Documents Status:** A horizontal bar chart showing the number of internal documents by type. 'Policies' have the highest count, with approximately 30 'Not Indicated' (grey) documents.
- Critical Supplier Documents Status:** A pie chart showing the distribution of document review statuses. The largest category is 'Review within 3+ months' (green), followed by 'Review within 3 months' (light green).
- Open Actions Table:** A table listing active compliance actions with columns for Department, Action, Description, Projected Finish, Priority, TC, Status, and Assigned To (user).

Department	Action	Description	Projected Finish	Priority	TC	Status	Assigned To (user)
Aero Thermal Ltd (16 Action records)							
	Major NCR	Investigate fuel storage in chilled container and reduce reduce stored quantities to below 500 litres. Prevent any further storage until a suitable DSEAR <a href="https://www.hse.gov.uk/fireandexplosion/dsear.htm">https://www.hse.gov.uk/fireandexplosion/dsear.htm</a> risk assessment has been completed and suitable double skinned bowser. Place Flammable signs on the container and strictly no smoking in area. Only trained competent approved person should be appoint to dispose of the fuel.	06-06-2024	Critical		Green	
	Fire Risk Assessments	Investigate the removal of the wooden structure placed in the fabrication workshop as this has the potential to ignite from hot works activities. If structure can not be removed then the structure should be covered in a fire retardant paint or fire proofed with fire boarding. The potential exists for the build up of combustible material that could be ignited from hot works activities, leading to rapid fire spread	08-05-2024	High		Red	
	Housekeeping	Stuart to clear outside CoSHH container of all waste in order CoSHH risk assessments to be started and review of sds sheets	16-05-2024	High		Green	

***"ISOcomply365's built-in asset management tool has helped us achieve our digital transformation strategy ahead of time. The level of support and training has been excellent."***

At ISOcomply365, we understand that your business's data management needs may fluctuate over time. That's why we offer the flexibility to purchase additional data usage as needed. If you require more data, simply purchase the minimum amount of 1,000 reads of data to add to your plan. This way, you can be sure you have access to the data you need without having to commit to a large, fixed data plan. This flexible model allows you to scale your data usage to meet the demands of your business as it grows and changes.
